The very sad news came here, last week, of the suicide by drowning of Mrs. Dr. George E. Lane of Ludlow. The doctor was once a resident of this place for some years, and Mrs. Lane was esteemed highly. Much sympathy goes out to the stricken family now.

Work began as usual in the granite sheds on Monday morning, and may likely continue through this week. But unless difficulties elsewhere are settled this week, the order for a lock-out of the New England Manufacturers' Association is expected to be enforced here, next week, and that will mean a virtual suspension of the business for a time.

William T. Pratt has bought of the Construction Company the lot on our main street occupied by the R. M. Watson barn and will build there, Dr. E. B. Watson has bought the lot just south of Mr. Pratt's, and will build a residence and office. The Methodist parsonage may occupy the lot adjoining the doctor's on the south, and thus the street be entirely re-opened to the section. And so our town moves onward in its new life.

A goodly number of friends from abroad were present to offer their words of cheer and greeting. Letters from absent ones were received expressing regret at not being able to be present, and offering their congratulations. Mrs. Hobart is eighty-five years old, Mrs. Hobart is eighty-four. Some twenty verses, written for the occasion, were read to the gathering. Mr. and Mrs. Hobart have lived long in our midst, worthy and respected members of society. At the breaking up of the gathering all joined in wishing the aged couple continued peace and prosperity, during what remains to them of life's journey.

Both granite companies are receiving more orders than they can fill, on account of the difficulty of securing transportation.

R. F. Drennan has given the Burial Ground Society a piece of land adjoining the old grounds. It is a beautiful tract, this should give this community a beautiful cemetery. The ground is being appropriately fenced, money for which has been contributed by the ladies' aid society and various public-spirited individuals. A little more help of this kind is needed to complete desirable improvements.

"Advertise your locality," say the boomers; "let people know what you have got." Well, then, we have first, the granite, and of the finest quality, enough to supply the world. We have a railroad surveyed, and expect it will be built—some time. We have good schools, and shall soon have a graded school at the center. The Congregationalists and Methodists both support preaching. We have two great grist-mills, and two carriage repair shops, two stores, one hotel, one post-office, with mails twice a day. It used to be asked, "Can any good thing come out of Woodbury?" One answer is, come and see. — To be going to the I-acc Walton school, suffice it to say we have upward of thirty natural ponds in the town, abounding in several varieties of the finny tribe.
